

Address

Christopher Morris
Theaterstraße 35-39
Office 215
52062 Aachen, Germany
E-mail: morris@cs.rwth-aachen.de
Homepage: <http://www.christophermorris.info>

Areas of Specialization

Machine learning for graphs (graph neural networks, graph transformers, equivariant neural networks, graph kernels) from a theoretical as well as applied viewpoint, and its application in combinatorial optimization and the life and natural sciences.

Education

06/2015–12/2019	PhD in Computer Science, TU Dortmund University, Germany, final grade: 1.0 with highest distinction (best possible grade)
01/2018–04/2018	Research stay at Stanford, Infolab (Jure Leskovec)
04/2012–05/2015	MSc in Computer Science, TU Dortmund University, Germany, final grade: 1.0 (best possible grade)
10/2008–12/2011	BSc in Computer Science, TU Dortmund University, Germany
08/1998–06/2007	University Entrance Qualification, Erzbischöfliches St.-Angela-Gymnasium, Wipperfurth

Employment

06/2022–present	Tenure-track assistant professor (“junior professorship” (W1 → W2)) at RWTH Aachen, Department of Computer Science
06/2021–06/2022	Postdoctoral researcher at McGill University, Department of Computer Science, in the group of Siamak Ravanbakhsh (DAAD IFI scholarship) and member of the Mila – Quebec AI Institute, Montréal
03/2020–05/2021	Postdoctoral researcher in the group of Andrea Lodi, Department of Mathematical and Industrial Engineering, Polytechnique Montréal
06/2015–12/2019	PhD student and research associate, TU Dortmund University, Department of Computer Science, within the DFG Collaborative Research Center SFB 876, advised by Petra Mutzel (now University of Bonn) and Kristian Kersting (Technical University of Darmstadt)
08/2007–04/2008	Mandatory civil service (German Red Cross)

Academic Honors

2024	DFG Heinz Maier-Leibnitz-Preis (200 000 €)
2022	DFG Emmy Noether fellow
2020	Dissertation award of TU Dortmund University (awarded for best Computer Science PhD thesis in 2020)
2020	Nominated (by TU Dortmund University) for the dissertation award of the German computer science association (GI Dissertationspreis)

Invited Talks

09/2024	University of Münster, Department of Mathematics and Computer Science, <i>Machine Learning on Graphs: From Theory to Practice</i>
07/2024	International Joint Conference on Artificial Intelligence 2024 (invited paper/talk, early-career track), <i>Towards a Theory of Machine Learning on Graphs and its Applications in Combinatorial Optimization</i>
04/2024	University of San Diego, Department of Computer Science (virtual), <i>WL meet VC: Generalization abilities of graph neural networks</i>
03/2024	DFG Research Unit ADYN seminar (virtual), University of Frankfurt, <i>WL meet VC: Generalization abilities of graph neural networks</i>
03/2024	Workshop on Foundational Aspects of Neursymbolic Computing (FANeSy), Santiago de Chile, <i>Generalization Abilities of Graph Neural Networks</i>
02/2024	Symposium on Sparsity and Singular Structures 2024, Minisymposia, RWTH Aachen University, <i>Weisfeiler and Leman go sparse: Expressive and scalable graph neural networks</i>
02/2024	Workshop on Algorithmic Aspects of Neural Networks, University of Cologne, <i>Generalization Abilities of Graph Neural Networks</i>
12/2023	Keynote at the LoG Munich Meetup, TU Munich, <i>Weisfeiler and Leman go Machine Learning: Expressivity and Generalization Abilities of GNNs</i>
11/2023	Keynote at the LoG Paris Meetup, École Polytechnique, Inria & Centrale-Supélec, <i>Weisfeiler and Leman go Machine Learning: Expressivity and Generalization Abilities of GNNs</i>
10/2023	ILCC/CDT NLP Seminar Series, School of Informatics, University of Edinburgh, <i>Weisfeiler and Leman go Machine Learning: Expressivity and Generalization Abilities of GNNs</i>
06/2023	Keynote at the satellite Conference “Deep Learning with Higher-Order Network Model” at the International School and Conference on Network Science (NetSci) 2023, Vienna, <i>Weisfeiler and Leman go Machine Learning: Expressivity and Generalization Abilities of GNNs</i>
04/2023	GIBU Jahrestreffen, Dagstuhl, <i>Machine Learning with Graphs: From Theory to Applications</i>
03/2023	Geometric Deep Learning Reading Group at Mila, Mila – Quebec AI Institute (virtual), <i>Weisfeiler and Leman go Machine Learning: Expressivity and Generalization Abilities of GNNs</i>
12/2022	Institute for Artificial Intelligence, Peking University (PKU) and the AI Pharma Seminar at the Institute of Natural Science (INS), Shanghai Jiao Tong University (SJTU) (virtual), <i>Towards Understanding Expressivity and Generalization of Graph Networks</i>
11/2022	ELLIIT Hybrid AI Workshop, Linköping University, <i>Graph Neural Networks for Data-driven Optimization</i>
09/2022	Mini-symposium on “Advances in Learning for Graphs, Manifolds, and Geometric Data - Part I of II” at the SIAM Conference on Mathematics of Data Science (MDS22) (virtual), San Diego, <i>Learning with Graphs: Graph Neural Networks and the Weisfeiler-Leman algorithm</i>

07/2022	Banff International Research Station for Mathematical Innovation and Discovery (BIRS) workshop “Deep Exploration of non-Euclidean Data with Geometric and Topological Representation Learning”, <i>Towards Understanding the Expressive Power of Graph Networks</i>
02/2022	University of Windsor (virtual), <i>Learning with Graphs: From Theory to Applications</i>
01/2022	RWTH Aachen University (virtual), <i>Learning with Graphs: From Theory to Applications</i>
12/2021	RWTH Aachen University (virtual), <i>Learning with Graphs: From Theory to Applications</i>
10/2021	University of Oxford (virtual), <i>Learning with Graphs: Graph Neural Networks and the Weisfeiler-Leman algorithm</i>
07/2021	Saarland University (virtual), <i>Machine Learning with Graphs: From Theory to Applications in Science and Engineering</i>
07/2021	University of Hannover (virtual), <i>Machine Learning with Graphs: From Theory to Applications in Science and Engineering</i>
11/2020	McGill University (virtual), <i>Limits of Graph Neural Networks and the Weisfeiler-Leman algorithm</i>
11/2020	INFORMS Annual Meeting (virtual), <i>Limits Of Graphs Neural Networks For Combinatorial Optimization</i>
10/2019	IBM Research, Zürich, <i>Graph Classification: Kernel and Neural Approaches</i>
05/2019	NEC Research, Heidelberg, <i>Graph Classification: Kernel and Neural Approaches</i>
03/2018	Stanford University, SNAP, Infolab, <i>Learning Higher-order Graph Embeddings: Theory and Practice</i>
07/2017	RWTH Aachen University, Chair of Logic and the Theory of Discrete Systems, <i>Graph Classification: Kernels and Beyond</i>

Supervised PhD students

01/2024– present	Antonios Vasileiou
12/2023– present	Antoine Siraudin
02/2023– present	Chendi Qian
10/2022– present	Luis Müller

Visiting PhD students

07/2024	Ben Finkelshtein (University of Oxford)
---------	---

PhD examination board memberships

03/2023	Leslie O’Bray, ETH Zürich
---------	---------------------------

Supervised Bachelor and Master students (acting as first supervisor only)

2024	Jonathan Léon du Mesnil de Rochemont, <i>Mixed-Resolution Tokenization for Graph Transformers</i> , Master thesis, RWTH Aachen University
2024	Abhishek Nadgeri, <i>In-Context Learning on Molecular Graphs</i> , Master thesis, RWTH Aachen University
2024	Darius Weber, <i>Exploring the power of graph neural networks in solving convex optimization problems</i> , Bachelor thesis, RWTH Aachen University
2024	Timo Stoll, <i>Investigating the Expressive Power of Graph Transformers</i> , Master thesis, RWTH Aachen University
2024	Joana Schmidt, <i>Graph Neural Networks Under Structural Noise</i> , Bachelor thesis, RWTH Aachen University
2024	Rafayel Ghandilyan, <i>The Expressivity and Generalization Properties of Graph Neural Networks with Mean Aggregation</i> , Bachelor thesis, RWTH Aachen University
2023	Eric T. Bill, <i>A Theoretical and Empirical Investigation into the Equivalence of Graph Neural Networks and the Weisfeiler–Leman Algorithm</i> , Bachelor thesis, RWTH Aachen University
2023	Chetan Prakash, <i>Distributed Active Voltage Control with GNN-based MARL Policy</i> , Master thesis, RWTH Aachen University
2023	Timothy Borrell, <i>The Expressive Power of Variants of the Weisfeiler–Leman Algorithm</i> , Master thesis, RWTH Aachen University
2023	Antonios Vasileiou, <i>The Expressive Power of Set-based Higher-order Graph Neural Networks</i> , Master thesis, TU Delft
2023	Antoine Origer, <i>Improving the generalization performance of the Weisfeiler–Lehman subtree kernel</i> , Bachelor thesis, RWTH Aachen University
2019	Nina K. Runde, <i>Evaluation von Varianten des k-dimensionalen Weisfeiler-Leman Algorithmus</i> , Bachelor thesis, TU Dortmund University
2019	Jannis D. Junge, <i>Algorithm Engineering zur Approximation des Spektrums von Graphen in der Praxis</i> , Master thesis, TU Dortmund University
2019	Frederik Stehli, <i>Approximation des Optimal Assignment Kernels durch explizite Merkmalsvektoren</i> , Bachelor thesis, TU Dortmund University
2017	Franka Bause, <i>Approximation der Editierdistanz für Graphen in linearer Zeit</i> , Bachelor thesis, TU Dortmund University
2016	Marcel Walker, <i>Systematisierung von neuronalen Netzen auf Graphen</i> , Master thesis, TU Dortmund University
2016	Christopher Osthues, <i>Experimenteller Vergleich von Labeling-Verfahren für Graphkerne</i> , Bachelor thesis, TU Dortmund University
2016	Serdar Ayaz, <i>Approximation des Weisfeiler-Lehman-Isomorphie-Tests durch Sampling</i> , Bachelor thesis, TU Dortmund University
2016	Marcel Walker, <i>Dimensionsreduktion von expliziten Graphkernen durch Hashing</i> , Bachelor thesis, TU Dortmund University

Teaching

SS 2024	Bachelor/Master course <i>Machine Learning with Graphs: Foundations and Applications</i>
---------	--

WS 2023	Master seminar <i>Foundations of Supervised Machine Learning with Graphs</i> Bachelor proseminar <i>Maschinelles Lernen mit Graphen</i>
SS 2023	Master course & exercise <i>Machine Learning with Graphs: Foundations and Applications</i> Bachelor proseminar <i>Maschinelles Lernen mit Graphen</i>
WS 2022	Master seminar <i>Foundations of Supervised Machine Learning with Graphs</i> Master seminar <i>Machine Learning for Combinatorial Optimization</i>
03/2022	Lecture <i>Introduction to Graph Neural Networks: Machine Learning with Graphs</i> in the <i>Dataninja Spring School</i> organized by the University of Bielefeld
11/2021	Guest lecture <i>Introduction to Graph Neural Networks</i> in the <i>Applied Machine Learning</i> class, McGill University
SS 2019	Proseminar <i>Graph Algorithms</i> (supervised students and helped with organization)
SS 2018	Seminar <i>Algorithm Engineering</i> (supervised students and helped with organization)
SS 2017	Seminar <i>Algorithm Engineering</i> (supervised students and helped with organization)
WS 2016/17	Student project group <i>Algorithm Engineering for Graph Data Mining</i> (co-organizer), Seminar <i>Algorithms Unplugged</i> (supervised students and helped with organization)
SS 2016	Seminar <i>Algorithm Engineering</i> , Seminar <i>Graph Mining</i> (supervised students and helped with organization)
WS 2016/17	Student project group <i>Algorithm Engineering for Graph Data Mining</i> (co-organizer), Seminar <i>Algorithms Unplugged</i> (supervised students and helped with organization)
SS 2016	Seminar <i>Algorithm Engineering</i> , Seminar <i>Graph Mining</i> (supervised students and helped with organization)
As a student	Programming tutorials for engineering students, teaching assistant for a course on theoretical computer science

mal

Service to the Profession

Co-organizer and sole chair of the workshop *Graph Learning Meets Theoretical Computer Science*, Simons Institute for the Theory of Computing, Berkeley

Co-organizer of the LOG conference local meetup in Aachen (more than 60 participants)

Panellist at *Graph Learning: Principles, Challenges, and Open Directions* (ICML 2024 tutorial)

Co-organizer of a workshop at RWTH Aachen University *Workshop on Machine Learning Methods* (May 31)

Reviewer for the Swiss National Science Foundation (SNSF) (1×2023 , 1×2024), reviewer for the German Research Foundation (DFG) (1×2023 , 1×2024)

Panellist at the *Workshop on Geometrical and Topological Representation Learning* (ICLR 2022 workshop)

Co-organizer of the graph machine learning reading group at Mila – Quebec AI Institute ([grlmila.github.io](https://github.com/grlmila))

Co-organizer of the NeurIPS 2021 competition *Machine Learning for Combinatorial Optimization* (www.ecole.ai/2021/ml4co-competition)

Co-organizer of the Dagstuhl seminar *Graph Embeddings: Theory Meets Practice* (March 27–30 2022, Dagstuhl Seminar 22132, together with Martin Grohe (RWTH Aachen University), Stephan Günnemann (TU Munich), Stefanie Jegelka (MIT))

Initiator of www.graphlearning.io, a large collection of benchmark datasets for graph classification and regression

Area chair for LoG Conference 2022 (Learning on Graphs Conference), Senior program committee member for AAAI 2023, Area chair for LoG Conference 2023 (Learning on Graphs Conference), Area chair for AAAI 2024, Area chair for NeurIPS 2024, Area chair for LoG Conference 2024 (Learning on Graphs Conference)

Program committee member for IJCAI 2019, NeurIPS 2019, AAAI 2020, ICML 2020, IJCAI 2020, ECML-PKDD 2020, NeurIPS 2020, ICLR 2021, AAAI 2021, ICML 2021, IJCAI 2021, NeurIPS 2021, ICLR 2022, ICML 2022, NeurIPS 2022 Competition Track, NeurIPS 2022, ICLR 2023, ICML 2023, NeurIPS 2023 (*Top reviewer award*), NeurIPS 2023 Competition Track, NeurIPS 2023 Datasets and Benchmarks Track, ICLR 2024, ICML 2024

Program committee member for *Representation Learning on Graphs and Manifolds* (ICLR 2019 workshop), *Learning and Reasoning with Graph-Structured Data* (ICML 2019 workshop), *Graph Representation Learning* (NeurIPS 2019 workshop), *Graph Representation Learning and Beyond* (ICML 2020 workshop), *Graphs and more Complex Structures for Learning and Reasoning* (AAAI 2021 workshop), *Workshop on Graph Learning Benchmarks* (The Web Conference 2021 workshop), *Graphs and more Complex Structures for Learning and Reasoning* (AAAI 2022 workshop), GroundedML: Workshop on Anchoring Machine Learning in Classical Algorithmic Theory (ICLR 2022 workshop), *Workshop on Graph Learning Benchmarks* (The Web Conference 2022 workshop), *Mining and Learning with Graphs* (ECML 2022 workshop), GLFrontiers Workshop (NeurIPS 2022 workshop)

(Sub-)Reviewer for WALCOM 2017, ISAAC 2018, ALENEX 2019, ESA 2018, ICALP 2020

Action Editor for TMLR (2024), Member of the editorial board of reviewers of JMLR (since 2024), occasional reviews for Transactions on Machine Learning Research (2×2022, 2×2023), IEEE Transactions on Pattern Analysis and Machine Intelligence (2×2020), Journal of Machine Learning Research (2020, 2021, 2023), Bioinformatics (2022), IEEE Transactions on Knowledge and Data Engineering (2021), INFORMS Journal on Computation (2022), INFORMS Journal on Optimization (2021), ACM Transactions on Knowledge Discovery from Data (2019), IEEE Transactions on Mobile Computing (2020), Elsevier Signal Processing (2021)

Member of the appointment commission for the professorship *Data Mining* (TU Dortmund University, 2017)

Grants

DFG Emmy Noether grant (individual grant 970 460 + 776 460 €)

RWTH Junior Principal Investigator Fellowship (individual grant 958 918 €)

Principal investigator of the DFG graduate school “UnRAVeL – UNcertainty and Randomness in Algorithms, VERification and Logic” (3 PhD years, 239 400 €)

Associated principal investigator of the Helmholtz School for Data Science in Life, Earth and Energy (HDS-LEE) graduate school (1.5 PhD years, 119 700 €)

DAAD IFI postdoc scholarship for a 13 month stay at the Mila–Quebec AI Institute (own funding 38 909 €)

Research associate and PhD student within the Collaborative Research Center SFB 876, assisted in preparing the grant proposal for project A6 *Resource-efficient Graph Mining*

Academic Outreach

Capital (German-language monthly business magazine), *Top 40 unter 40* (2024)

Interview with the German national newspaper Tagesspiegel on my research and being awarded the DFG Heinz Maier-Leibnitz-Preis (2024)

Interview with the daily German newspaper Aachener Zeitung on my research and starting a new group at RWTH Aachen University (2023)

Talk and plenary session at the German Academic International Network (GAIN) meeting 2022

Interview for the DAAD magazine on my experience of moving back to Germany to continue my research career

Other

Computational Skills Python, C++, \LaTeX , NumPy, Scikit-learn, PyTorch, PyTorch Geometric

Languages German (native), English (fluent)

Citizenship German and British
